

IT DOESN'T MATTER WHAT YOU DRIVE . . .

2013 ■

. . . AS LONG AS YOU ARE POSITIONED WITH
MOTION CONCEPTS

When you choose to be positioned with Motion Concepts it really doesn't matter what you drive. From the smallest child to the largest adult, rear wheel drive to front wheel drive, and everything in between; we have a system that will ideally meet all your client's needs.

Featuring unparalleled modularity and base-to-base capability our Ultra Low and F-Series systems are designed to seamlessly interface with virtually every power chair in the industry, from any manufacturer. Not sure what base may be the best choice for your application? Call our dedicated customer service team and they will help guide you.

- Flexible, common sub-frame interfaces with over 70 different power chairs from every major manufacturer
- Seat sizes as small as 10" x 10" all the way up to 36" x 32"
- Positioning accessories and components such as arm rests, arm pads and front rigging are the same, no matter what base you choose
- Adjustable center of gravity (COG) allows placement of every Motion Concepts system on the power base for optimal performance and stability
- Designed for achieving the lowest seat to floor heights possible
